

Landfill & Waste-to-Energy (WTE) Operator Training

**On the Disposal Reporting System
(DRS)**

About this Training

- **Presents DRS requirements relating to Landfill and Waste-to-Energy (WTE) Operators and employees.**
- **Covers minimum state DRS requirements.**
- **May be tailored to fit local requirements and unique operations of individual landfills and WTE facilities.**

Who is a Landfill Operator?

This picture shows the landfill with waste disposal trucks and bulldozers dumping and moving garbage.

Who is a Waste-to-Energy Operator?

This building is a Waste-to-Energy or transformation facility where waste is turned into energy.

California Integrated Waste Management Board

There are three pictures: Top left picture shows an aerial view of a landfill. Middle right picture shows closer view of landfill. Bottom left picture shows trucks crossing the scales at the landfill gatehouse.
